Step into the spirit of the West as we celebrate the 61st Annual Dixie National Livestock Show and Rodeo! This year, we are especially proud to honor our nation as America commemorates its 250th anniversary. And what better way to pay tribute to this historic milestone than with America's original sport – RODEO.

This signature "Genuine Mississippi" tradition welcomes dedicated rodeo fans, hardworking 4-H and FFA members, dazzling rodeo queens, and visitors from all over to the Mississippi State Fairgrounds. For six exciting weeks, the Fairgrounds come alive with equine and livestock competitions, the Dixie National Rodeo, the renowned Sale of Junior Champions, Rodeo Days Expo, the Mississippi Ag and Outdoor Expo, the Dixie National Steakhouse, and the always-popular Dixie National Parade.

We are proud to share that Southern AgCredit is returning as the title sponsor for this year's Dixie National Livestock Show and Rodeo. Be sure to mark your calendars for the rodeo performances scheduled for February 13-15 and 18-21 at the Mississippi Coliseum. As the largest rodeo east of the Mississippi River, each performance promises unforgettable action—plus a concert following every show. The beloved Dixie National Parade will roll through downtown Jackson on February 14th. This year's theme, "For Love of Country," will celebrate America250 and the spirit of our nation with patriotic displays highlighting all things red, white, and blue. Spectators can look forward to rodeo queens, marching groups, decorative floats, car and tractor clubs, riding groups, dignitaries, the iconic Dixie National Wagon Train, and much more.

While you're here, take full advantage of everything happening inside the Mississippi Trade Mart. Dixie National Rodeo Days will give rodeo fans an up-close look at agriculture and the rodeo lifestyle. Explore hands-on educational exhibits and shop a variety of vendors offering something for every age. And don't forget to return for the spring Mississippi Ag and Outdoor Expo, an event you won't want to miss.

The pinnacle of the junior livestock show circuit in Mississippi is the annual Dixie National Sale of Junior Champions. Last year, 1,269 Mississippi 4-H and FFA youth exhibited 1,941 head of livestock during the Dixie National Junior Livestock Round-up. Forty-nine of the animals were sold during the Sale of Junior Champions, grossing a total of \$591,284. This set a new record sale total over the 56-year history of the Sale. Additionally, the Sale of Champions Promotion Committee awarded 39 scholarships totaling \$85,000, bringing the total scholarship money awarded since 1993 to over \$1.27 million.

We are deeply grateful for the continued support of our outstanding sponsors, whose commitment helps us bring world-class entertainment and elite rodeo talent to Mississippi year after year. Watching this event grow into the most distinguished rodeo east of the Mississippi River has been remarkable, and we look forward to carrying this legacy forward. We invite you to wear your red, white, and blue and join us once again for what truly is the "Greatest Show on Dirt!"

Andy Gipson
Commissioner of Agriculture and Commerce

DIXIE NATIONAL SALE OF CHAMPIONS

Thursday, February 12, 2026, 11:00 AM, Trade Mart Building

The Dixie National is the showcase of the livestock industry in Mississippi. Both 4-H and FFA youth exhibit their livestock in the largest junior market livestock show in Mississippi. The champions and reserve champions of the Junior Market Steer Show, the Junior Market Lamb Show, the Junior Market Hair Sheep Show, the Junior Market Swine Show, the Junior Mississippi Bred Barrow Show, and the Junior Market Goat Show, are singled out for a special tribute at the Dixie National and are eligible for this sale – a just reward for the exhibitors of these animals for an exceptional job.

In addition to these show champions, the Overall Grand and Reserve Grand Champion Mississippi Bred Market Steers, Market Lambs, Market Hair Sheep, and Market Goats are eligible for the sale if they are not one of the regular show champions or reserve champions.

The Dixie National Sale of Champions Promotion Committee also presents scholarships to livestock and dairy exhibitors at the Dixie National Junior Round-Up that do not have an animal in the Sale. In 2025, the committee presented 41 youth with scholarships totaling \$85,000. Winners of the Premier Exhibitor Contests, in addition to exhibitors having an animal in the 2026 Sale of Champions (this applies to multiple owners of animals too, even if the animal was shown by the exhibitors' brother or sister), will not be eligible to receive one of the Sale of Champions Scholarships awarded to high school seniors.

List of livestock that qualifies for the Sale of Champions or Supreme Animal Scholarships

Market Steers

- Champion & Reserve Champion American, English, Lightweight European, and Heavyweight European Steers
- MS Bred Grand & Reserve Grand Champion Steers (if not already in the sale)

Market Swine

- Champion & Reserve Champion Duroc, Chester, Yorkshire, Hampshire, Spotted, Hereford, Crossbred Hogs, Other Breeds/Berkshire, and MS Bred Barrows. Note: for market swine, there must be 30 or more market swine in each breed show for the Reserve Champion of that breed to be included in the Sale of Champions.

Market Lambs, Market Hair Sheep, and Market Goats

- These shows will be set up in divisions on a sliding scale based on the animals that an exhibitor can check-in and exhibit per the current year's Dixie National Junior Round-Up Premium Book as follows: 0 to 30 animals = 1 division; 31 to 60 animals = 2 divisions; 61 to 90 animals = 3 divisions; 91 to 120 animals = 4 divisions; 121 animals and over = 5 divisions. Divisions will be named in numerical order from 1-5 depending on the number of divisions in the show. Each division will be divided into classes as near equal in number as possible with no more than 10 pounds of weight range in any class. A Champion and Reserve Champion will be selected from each of the divisions that will qualify for the Sale of Champions. Overall Grands and Reserve Grands will be selected from the division champions from each show. MS Bred Grand & Reserve Grand Champions will be included in the sale, if they have not already qualified as a Division Champion or Reserve Champion.

General Rules Pertaining to Exhibitors and Participants in the MS Junior Livestock Shows

Mission Statement

The Mississippi State Fair and Dixie National Junior Round-Up Livestock Shows promote agriculture to educate the public and promote Mississippi youth through livestock education and competition.

Exhibitor Eligibility

1. Only youth physically residing in Mississippi, ages 8 through 18, who are bona fide members of a 4-H club or FFA chapter within the state are eligible to show. Exhibitors must be at least 8 years old before January 1 of the current year and must not have passed his/her 18th birthday before January 1st of the current year. The only exception to the eligibility rule is for exhibitors who have not passed his/her 19th birthday before January 1st of the current year and are currently enrolled in high school are also eligible to show. Exhibitor's age is determined by the exhibitor's age on January 1 of the current calendar year in which the show is held (not necessarily age on show day.)

Code of Conduct

1. Each exhibitor and his/her family participating in Mississippi Junior Livestock Shows is a representation of several thousand 4-H and FFA Beef, Dairy, Sheep, Goat, and Swine Project Members in the State of Mississippi. Each exhibitor and his/her family must accept the responsibility of creating a positive image that reflects the 4-H and FFA ideals. All exhibitors, parents, and guardians must participate in the Mississippi Youth Livestock Producer Quality Assurance Program to be eligible to show in the Mississippi State Fair, District Shows and Dixie National Junior Round-Up. Show Management reserves the right to send any junior exhibitor home with his/her exhibit if he/she, any family member, or anyone helping to fit their animal is guilty of conduct unbecoming the junior livestock shows. This training is formalized by signatures on the Code of Conduct Agreement: 4-H/FFA Livestock Exhibitors (MSU Extension Publication F1152).
 - a. Any exhibit shown prior to misconduct will not be eligible for premium money, placings, or awards. The next high placing animal will not be advanced (unless rule 1 under the General Show Rules that apply to Multiple/All Shows is relevant.)
 - b. Criticizing, interfering with, or improper contact with the judge before, during, or after the event; criticizing or interfering with other exhibitors, breed representatives, or show officials before, during or after the event is a violation of the Code of Conduct. This may result in an individual, their family or group, and anyone helping to fit their animal, being expelled, placed on probation, declared ineligible, or barred from exhibiting at or attending an event or future events.
 - c. EJECTION FROM LIVESTOCK EVENT (Adopted January 20, 2014.); Source: Miss. Code Ann. §69-5-101 et seq.
 - i. Any person(s), while attending or participating in a livestock event being conducted under the auspices of the Mississippi Livestock Show ("Show"), including but not limited to, the Dixie National Junior Round-Up or the Mississippi State Fair Junior Livestock Show, whether during show time or not, who engages in any conduct that poses a clear and present danger to the public health, safety or welfare, including but not limited to, fighting, intoxication (alcohol or drugs), use of profanity, acts of terrorism, discharge of weapons or disorderly or threatening conduct, may be immediately ejected from the premises where the event is being held by the Show's duly authorized agents or designees for the duration of the livestock event, including but not limited to, the Dixie National Junior Round-Up or the Mississippi State Fair Junior Livestock Show.
 - ii. The ejected person(s) shall then have thirty (30) days to request an informal administrative review before the Deputy Commissioner of the Mississippi Department of Agriculture and Commerce, or his designee, who shall act as a reviewing officer. At this informal administrative review, subpoena power shall not be available, witnesses shall not be sworn or be subject to cross examination and no record shall be made of the proceedings. The reviewing officer's decision shall be in writing and shall be delivered to the parties by certified mail. If the accused does not request a hearing within thirty (30) days, then he is deemed to have waived his right to a review.
 - iii. If any party is aggrieved by the decision of the reviewing officer, he shall have thirty (30) days after his receipt of the reviewing officer's decision to appeal to the Show for a full evidentiary hearing before the Show's directors or their designee. Witnesses shall be sworn and be subject to cross examination. A written record shall be made of the proceedings. The decision of the Show directors shall be in writing and shall be delivered to the parties by certified mail.
 - iv. If either party is aggrieved by the decision of the Show directors, he shall have thirty (30) days after receiving receipt of the directors' order to appeal to the circuit court of the county where the event was held. Any appeal to circuit court shall be made in accordance with existing state laws and regulations governing such appeals.

Code of Ethics

1. To maintain a high degree of confidence and integrity of our Mississippi Junior Livestock Shows, any animal found to have been fitted, cared for, or shown in an unethical manner shall be disqualified and the exhibitor shall forfeit all awards, premiums, and sale money. The exhibitor, their parent(s) or guardian(s), or livestock fitter may be barred from participating in future shows. Exhibitors of animals at livestock shows shall always deport themselves with honesty and good sportsmanship to maintain a high degree of confidence and integrity of our Mississippi Junior Livestock Shows. By entering an animal in the Dixie National Junior Roundup, the exhibitor, their parent(s) or guardian(s), and livestock fitter acknowledge that they have read and will abide by this Code of Ethics below as adapted from the National Code of Show Ring Ethics.

Animal Inspection

1. As a condition for participation in state supported shows, each exhibitor and his/her parent(s) or guardian(s) must agree to allow any employee of the Mississippi Department of Agriculture and Commerce, Board of Animal Health, Extension Service, or an Agriculture education teacher to inspect the exhibitor's show animal(s) after the ownership deadline date at any reasonable time without advance notice, provided, however, that the exhibitor, parent or guardian, or property owner be present. If the animal is not at the physical location listed on the nomination form, without justifiable cause, the animal is subject to disqualification following a review by the Rules Committee.
2. As a condition for participation in the show and sale, every exhibitor, by entering an animal, agrees his/her animal may be inspected and subject to any laboratory analysis or any other diagnostic tests as determined by the Show Management or Rules Committee. Specifically, management has the authority to inspect any animal, its hide or carcass; to collect blood, urine, body fluid, or tissue; and/or perform any other laboratory analysis deemed necessary. The exhibitor, and his/ her parent(s) or guardian(s) or designated volunteer leader, must be present during the collection of samples for testing, sign necessary paperwork, and verify the sample to be properly collected and prepared for analysis. All specimens, which are taken randomly and from sale animals, will be collected and submitted for laboratory analysis following approved standard operating procedures from the Animal Drug Use Committee.

Drug Use Rule

1. Animals shall not be administered drugs other than in accordance with applicable federal, state, and provincial statutes, regulations, and rules. If a show is designated as terminal, animals must present to the show free of drugs in accordance with drug withdrawal times. Legal or illegal substances administered to physically alter their appearance, and/or performance of an animal entered in livestock events are prohibited.
 - a. Performance enhancing drugs (including, but not limited to, steroids, diuretics, anti-inflammatories, tranquilizers, and pain killers) may not be administered 5 days prior to showing the animal. Examples include aspirin, flunixin meglumine, dexamethasone, and meloxicam.
 - b. Behavior modifiers and other over-the-counter products such as caffeine and calming or stimulating agents are not currently FDA approved for food animal species and are not allowable.
 - c. Exhibitors are responsible for knowing the FDA approval status of any substance administered to their animal. Information can be obtained from their local veterinarian, a state livestock show veterinarian, or through the FDA Animal Drugs website.
2. As an exception at the Mississippi State Fair and Dixie National Junior Round-Up Junior Dairy Cattle and Junior Dairy Goat Shows, a veterinarian from MSU's College of Veterinary Medicine or the State Veterinarian or a veterinarian designated by the State Veterinarian, may administer medication(s) he or she deems necessary to treat an acute health condition in a lactating and or pregnant dairy heifer, cow, doeling, or mature female dairy goat and the animal be allowed to show provided that: (1) the treating veterinarian determines that showing the animal does not place the animal's health or the health of other animals at risk and does not mask any pre-existing condition that could otherwise alter the gait or performance of the animal, and (2) after all entries in the class in which the treated animal is to be shown have entered the show ring and before judging begins there shall be an announcement made on the show ring's public address system to all entries in the class and to the judge stating which animal(s) has (have) been treated if any of the medication(s) administered is (are) considered potential "performance enhancing drug(s)."

Violation of Drug Use Rule

1. If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medications that have not been listed on the health form, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested (by the approved laboratory to which it is sent) is the one taken from the animal in question. Its integrity is preserved and all procedures of said collection and preservation transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise at any hearing in regard to the matter conducted by the fair or livestock show.
2. In the event of a drug violation, the DNJR Drug Committee will collect all pertinent information regarding the violation, hold a hearing, and recommend sanctions to the Show Directors. Violation of the Drug Use Rule will result in the disqualification of the animal being shown and may result in disqualification of the exhibitor. Violations of the Drug Use Rule may also result in an exhibitor forfeiting any premium, awards, or auction proceeds and being prohibited from further competition at officially sanctioned livestock shows in Mississippi.
 - a. The use of animal drugs or other substances in any manner other than in accordance with the labeling approved by the Food & Drug Administration (FDA), the United States Department of Agriculture (USDA), and/or the Environmental Protection Agency (EPA) is a violation of federal law. Any animal that exceeds acceptable levels established by the appropriate regulatory agencies, such as the USDA, FDA, and EPA, will be in violation of these rules and appropriate action will be taken. Furthermore, any information obtained on the practice of illegal alteration of an animal will be turned over to the proper authorities for criminal prosecution. The use of illegal drugs is considered a pre-meditated act.

Mississippi Livestock Exhibition Health Form

1. All exhibitors at the Mississippi State Fair and Dixie National Junior Round-up Livestock Show will be required to complete and turn in an Animal Health Record Form documenting the use of any drugs and/or medications administered to animals entered in these livestock shows within 60 days prior to exhibition from MSU Extension.

2. All products and treatments received must be recorded with their recommended or established withdrawal times, including, but not limited to, over-the-counter medications, medicated feeds, vaccinations, dewormers, prescription medications, and extra-label drug use medications. The prescribing veterinarian's name and number must be provided when off-label drug use or use of a medicated feed is listed.
3. Veterinarians should follow the criteria outlined by the FDA Animal Medicinal Drug Use Clarification Act (AMDUCA) when using extra-label drugs on livestock. This requires that the veterinarian identify the animal treated, the condition(s) being treated, the name and active ingredient of the drug used, along with its dosage and appropriately extended withdrawal period. Withdrawal periods for extra-label drug use must be obtained from the issuing veterinarian and may be found at the Food Animal Residue Avoidance Database (FARAD).
4. Any deviation from approved label indications for disease treated, species of animal, dosage route of administration, duration of administration, etc. constitutes "extra-label" drug use. All extra-label uses (including use in a non-label species) of medications must be by or under the direction of a licensed veterinarian to comply with FDA guidelines for extra-label drug use. Federal regulations prohibit animal owners from administering medications in any manner not consistent with the approved label. Extra-label use of any medicated feed is strictly prohibited.
5. Exhibitors submitting incomplete or incorrect health forms may not be allowed to show or may be disqualified if improper drug use is documented.

Treatment of Animals on the State Fairgrounds

1. No medications or substances, as well as tools or equipment used to administer medications or other substances, are allowed on the property known as the Mississippi State Fair Grounds during the Fair and DNJR Livestock Shows, except those in the possession of a Mississippi-licensed veterinarian.
2. At any time after an animal arrives at the Fair or DNJR Livestock Show premises, a Mississippi-licensed veterinarian shall administer all treatments involving the use of drugs and/or medications ONLY after consultation with and in the presence of an appointed MSU-CVM veterinarian and a written medication record must be filed with the Livestock Show Management Office.
3. Animals treated with performance-enhancing drugs for animal health or welfare purposes while on the show grounds are ineligible for competition based on the Drug Use Rule unless it is a dairy animal as indicated above, or more than 5 days will lapse between treatment and show.
4. There shall be a licensed MSU-CVM veterinarian on call during the Fair and DNJR. The appointed MSU-CVM veterinarian will be available on the fairgrounds during specified hours as posted outside the veterinarian office in Barn 15. Parents or guardians of the exhibitors will be responsible for the cost of medications only.

Unethical Fitting

1. Unethical fitting is not acceptable and is a violation of the Code of Ethics. Any owner, exhibitor, fitter, trainer, or other responsible persons found to be practicing unethical fitting will be subject to disciplinary action. Unethical fitting shall include, but not be limited to:
 - a. Any injection of air, gas, liquid, solid or any other foreign material under the hide or into the muscle.
 - b. Surgery of any kind to change the natural contour or appearance of the animal's body. Not included are the removal of warts, teats, horns, docking of tails, trimming of hooves, clipping of hair or wool, or any medical practice deemed necessary for health reasons, performed, and verified by a veterinarian.
 - c. Using any product, such as but not limited to, alcohol, aerosol coolants, ether, etc.; and any other abnormal/artificial procedure or practice to change the degree of firmness, muscle tone or mass, and/or weight of the animal.
 - d. Any attempts to disrupt or change normal dental development.
 - e. Application of paint, dye, or other substances to any part of an animal's body that attempts to change the color pattern or alter other aspects of the apparent breed character of an animal is prohibited.
 - f. Using any illegal substance or procedure that results in condemnation of the carcass.
 - g. Any use of added hair or hair-like material, natural or manmade. This includes, but not limited to, artificial tail heads, polls, switches, and gluing of natural hair to any part of the body.
 - h. Striking an animal to cause swelling.
 - i. Drenching or administering substances internally or treating an animal, externally with an irritant, counterirritant or other substance used to artificially change the natural conformation or appearance of the animal or to cause swelling or change in contour or handling qualities for show is considered unethical, inhumane, and is prohibited.
 - j. Balancing the udder by any abnormal means including the use of a mechanical contrivance or the injection of fluid or drugs, setting the teats and/or occluding (sealing the ends) with a mechanical contrivance or with the use of chemical preparation, treating, or massaging the udder or its attachments with an irritant or counterirritant will not be permitted. The use of common products such as fly spray, ointment, or liniment in excess to the extent that it is irritating is included as an irritant.
 - k. Misrepresenting the age of the animal for the class in which it is shown. Commercial heifers must follow the tooth rule as stated in the premium book of the show. Birth dates, transfer dates, and other information on registration certificates of registered animals must be correct.
 - l. Switching animals between exhibitors, groups, or any individual, or changing ear tags or other forms of identification.
 - m. Showing an animal for another individual by claiming ownership.
 - n. The use of inhumane fitting, showing and/or handling practices or devices.

Rules Committee

1. The Rules Committee for the Mississippi State Fair and Dixie National Junior Round-Up will be responsible for enforcing the Code of Conduct and Code of Ethics. It will consist of the following people: (1) Co-manager of junior show (4-H), (2) Co-manager of the junior show (FFA), (3) Show Superintendent of division involved, (4) Livestock Director, Mississippi Fair

Commission, (5) Extension agent (appointed by Extension Director), (6) Agricultural education teacher (appointed by State Agricultural Education/FFA program supervisor), and (7) veterinarian (appointed by State Veterinarian).

Code of Conduct Agreement

1. By enrolling an animal in the show, every exhibitor, and exhibitor's parents and/or guardians agree that:
 - a. They are responsible for the care and custody of their animals during the duration of the show.
 - b. The drug test results of the testing laboratories are final and binding upon the exhibitor and the exhibitor's parents and/or guardians. Even if the source of the drug is unknown, Show Management shall be entitled to disqualify the animal and/or exhibitor and take further action as appropriate.
 - c. The conclusions reached and actions taken by the Rules Committee and Drug Committee regarding Code of Conduct, or Code of Ethics violations shall be final, without recourse against the Show Management, the Rules Committee, the Drug Committee, or buyers.
 - d. Any animal found to have been fitted, cared for, or shown in an unethical manner shall be disqualified and the exhibitor shall forfeit all awards, premiums, and sale money. The exhibitor, their parent(s) or guardian(s), or livestock fitter may be barred from participating in future shows. A second offense in the same immediate family may result in the barring of the entire family of the exhibitor from further participation in any state supported livestock show. Furthermore, the Show Directors may impose such penalties as deemed appropriate.

Exhibitor Attire

1. Exhibitors are expected to wear attire appropriate for the weather while remaining modest and socially acceptable. Exhibitors must wear shirts with sleeves. Clothing deemed immodest or distracting to other contestants or participants will not be permitted. No T-shirts, hoodies, sagging pants, pants with rips/holes, sandals, halters or open front or low-neck tops, or other inappropriate type attire will be allowed in the show ring or at the Sale of Champions. No clothing may be worn by an exhibitor that identifies a farm name, breed, slogan, or advertisement during judged competition.

Animal Presentation

1. Each exhibitor shall clip, groom, and dress his/her own animal throughout the ownership period and while at the Mississippi State Fair and Dixie National Junior Round-Up. An exhibitor may be assisted in the clipping, grooming, or dressing of his/her animal by others. There are no residency requirements, qualifications, or restrictions for those assisting with the clipping, grooming, or dressing of livestock. This rule does not apply to the removal of horns or the trimming of hooves.

Nomination Rules

1. All livestock entries must be made by the exhibitor's supervising Extension Agent or Agriculture education teacher. Entry instructions will be provided to the Extension Agents and Agriculture education teachers prior to deadlines.
2. **Exhibitors must maintain continuous ownership, and care of his/her animals from the time of ownership deadline until show day.** The eligibility of exhibitors will be determined by the supervising extension agent/agricultural education teacher who certifies that the youth exhibitor is taking care of his/her animal.
3. Animals, which are owned jointly on a partnership basis with an adult, are not eligible to show in the Mississippi State Fair, District Shows, or Dixie National Junior Round-Up. FFA and 4-H members must be individual owners of any animal which they exhibit unless 2 or more brothers or sisters (or legal foster child), each 18 years of age and under as of January 1 of the current show year of a family, constitute a partnership in ownership of the animal. At the time of check-in at the Fair and DNJR, all jointly owned animals must be changed to a single entry in the app so that the FFA or 4-H youth in that joint ownership will be declared as the individual who will show each animal in that show. Animals must be registered by individual names and not in the name of a farm, partnership, or other entity.
4. No registered breeding animals (beef; dairy; breeding Boer doe; dairy goat) will be allowed to be entered/nominated without a name and date of birth. All breeding animals with pending registration information after January 5, 2026, will not be allowed to show at the Fair and DNJR, respectively, unless extenuating circumstances are presented in writing to the Rules Committee within 5 days of the above deadline. Animal registration information will be verified electronically before the Fair and DNJR. Updated registration information for each pending animal must be submitted to the supervising Extension Agent/Agriculture education teacher by January 5, 2026. For registered animals with a dual registry in multiple breed associations, once the animal has been nominated for exhibition in one breed through the Mississippi 4-H/FFA Livestock Program, it may not show in another breed regardless of other registration certificates. Animal registration information will be verified electronically before the DNJR with the nominated breed association only.
5. Before any breeding animal or market animal is shown by a junior at the Fair, District Livestock Shows, and the DNJR, the animal must be entirely owned by and cared for by the exhibitor. After ownership deadline, the animal shall not be shown in its individual class at any show by anyone other than the junior owner, a member of the immediate family, or another junior 4-H/FFA member. And further, before any animal shown by a junior is entered upon the books of the respective show, the Extension Agent in charge of the county 4-H work or agricultural education teacher will certify that this animal has been in the junior exhibitor's possession for the length of time as heretofore stated and that the agent or teacher has checked the tattoo number of the breeding animal to be shown against the registration papers of said animal and that the tattoo number, ear tag(s) and date of birth in the registration papers corresponds with the information on the entry.
6. The approved animal I.D. method (840 USDA Official All-in-One EID tags) has been approved by the MLC Show Directors for the shows.

Ownership/Ear Tag/Entry, Classification and DNA Validation of Livestock

1. Exhibitors must purchase an 840 USDA Official (All-in-One) EID ear tag matched set for all market or commercial animals (except for commercial dairy heifers and goats) through the State 4-H Livestock Office. These animals must be ear tagged prior to making entry and the EID tag number must match what was entered at the time of show or that animal

will be disqualified. In addition, all other ear tags must be removed from market animals excluding official show tags. The Extension Agent or agricultural education teacher must verify all market and commercial animals are under the exhibitor's supervision by the following dates.

2. All breeder/farm names and logos on any scrapie tag or official ear tag in small ruminants must be covered with black tape on show day.

General Show Rules that apply to Multiple/All Shows

1. Top 3 in divisions of market shows at the DNJR
 - a. Each division in the DNJR Market Shows should select a top 3 within the division. The purpose of this selection is to ensure that in the event the Champion or Reserve Champion is disqualified before the sale, there will be an alternate to fill those sale slots in the DNJR Sale of Champions.
2. Top 5 Selection of Animals
 - a. For junior livestock shows at the Fair or DNJR where a sponsor has awards for the selection of Top 5 animals in any given show, all champions (breed/breed-type/weight division/etc.) will compete for the Top 5. Reserve champions are allowed to compete once that champion has been selected in the Top 5 for that show. Selection of the top 5 does not supersede the need for a MS Bred drive unless all MS Bred division champions and reserve champions are present or unless Grand and Reserve Champions are MS Bred.
3. All animals in the junior division must meet health requirements governing admission of livestock entering fairs or livestock shows. Official Health Certificates will be checked on all breeding and market animals by the Mississippi Board of Animal Health. If papers are not in order, animals cannot be unloaded.
4. If a breed (breeding or market) shows fewer than 10 animals for 2 consecutive years at the Fair or DNJR, then that breed will lose its separate classification and be shown in the other breeds classification. If a breed shows 10 or more for 2 consecutive years in the other breeds classification, then that breed will receive a separate (breeding or market) classification the following year.
5. There shall be no more than 15 animals in a class (breeding; market; showmanship). If a class consists of more than 15 animals, that class will be divided into two classes as nearly equal as possible. When an uneven number of animals occurs, the odd number will go in the first heat.
6. No market animal shall be shown at any state supported show that has been shown in any other show outside of Mississippi under different ownership.
7. The first and second place animals in each class of market animals, commercial beef heifers, wether dams, commercial gilts, commercial meat goat does, and breeding hair sheep will be required to weigh back as soon as possible after their respective class. The animal must weigh within 5% of the overage or it will be disqualified. Animals will be weighed once (no re-weighs). If either or both first or second place animals are disqualified, weighing through the order of the class will continue until an official first and second are determined. Show management will designate an individual to accompany each animal and exhibitor to the scales for weigh back.
8. All registered beef and dairy breeding animals must be accompanied by original registration certificate or current electronic verification through the breed association's database showing that animal is owned by the junior exhibitor. Such certificate will be checked for positive identification and to establish eligibility for showing. Animals without registration papers presented will not be permitted to show. Breed associations and management reserve the right to check animal tattoos or brands with registration papers.
9. No adults, other than ring staff, show officials, and judges, are allowed in show rings.
10. Exhibitors must show their own animal or animals. The only exceptions are in cases where the exhibitor has two entries in the same class, is showing in another breed or specie at the same time, if the exhibitor is physically disabled (illness or injury) at the time of the show, or in case of the death of a junior exhibitor after the ownership deadline or in the case of death of an exhibitor's immediate family member (father, mother, brother, sister, grandfather, or grandmother). In such cases, the exhibitor or parent may request a substitute show person. It is the responsibility of the parents, adult leaders, Extension Agents, and

agricultural education teachers, not only to see that their exhibitors abide by these rules, but that others do so also. All exhibitors must report to the class make-up area, whereby animals and exhibitors are checked to determine that the owner is showing his/her own animal before they enter the show ring. It is the responsibility of exhibitors to know when they must be in the makeup area or show ring. Not hearing or understanding class calls, etc., is not an excuse for missing one's heat or class. The PA system is used to help the show move as smoothly as possible, but it is only a courtesy.

11. Exhibitor or parent requesting a substitute show person must make such request to show management before the time of class and complete a request form available at the livestock office. This form must be completed and presented to show management prior to animal entering the holding area. Substitute show person must be another junior exhibitor who qualified at District and is also showing his/her own animal in the same show. Failure to present requests prohibit animal from showing.
12. Animals which are not properly trained and under the control of the exhibitor may be dismissed from the show ring.
13. Exhibitors must show their own animal in showmanship classes and animals must be properly entered in their respective show.
14. Any exhibitor, parent, or anyone helping to fit their animal, who individually, or through some other person, violates any of the show rules, and that violation is upheld by the show management and Rules Committee, may be subject to forfeit all premium money, may be barred from participation in future shows, and to such other penalties that the show management and Rules Committee may deem in order.
15. Arrival and release times are determined by the show management and the Mississippi State Fair Commission to make the best use of available space and to provide the best possible show for all exhibitors, and the public. Exhibitors are expected to keep their livestock on display until designated release time.
16. Decisions of judges will be final. No person may ask the judge to reverse their decision.
17. Ribbons will be awarded as designated in the catalog.
18. Exhibitors of livestock, to be eligible to receive premiums, will, upon request of the show management, permit use of their animals for scheduled judging contests.
19. Exhibitors will be expected to furnish feed and necessary equipment.
20. In instances where a single animal is shown in a breed or division, if the judge deems it worthy to be a champion, the animal should be awarded the champion award for that breed/division and be allowed to compete in the Supreme drive.
21. Any new rule or amended rule that passed through the MLC process and approved by the MLC Show Directors shall remain in effect for three years.

Show officials will sign the seal to ensure it is not opened until rules committee meeting. Protests must be made and signed by the person(s) protesting. The protest must designate the exhibitor and animal involved and the specific rules or regulations that the exhibitor and/or animal is violating. All submitted protests will be announced over the public address system, but the name of the person filing the protest will be kept confidential. Protests regarding the eligibility of an exhibitor and his/her animal(s) to participate in the shows, not requiring carcass inspection and/or laboratory tests, must be accompanied by a \$300 cash deposit (which will be forfeited if protest is not sustained) and submitted to the show manager before the start of that show. Once the show has started, no animal will be removed from the show but may be disqualified (awards forfeited) at any point after the show. Protests that involve unethical fitting, grooming, or exhibition of livestock must be accompanied by a \$300 cash deposit (which will be forfeited if protest is not sustained) and submitted to the show manager before the conclusion of that show. Special Considerations for Beef Breeding Shows

MS Bred Awards for Beef Breeding Shows

- A representative from beef breeding associations that give special awards during the beef breeding bull and heifer shows should be present to assist with the presentation of awards and lining up cattle for MS Bred Champion drives.

Angus

- The American Angus Association®, 3201 Frederick Avenue, St. Joseph, Mo., will participate in premiums offered in individual classes for junior Angus heifers, as included in its standard show classifications, according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be

used to offset show expenses and shall be included in the premium payments distributed by the show to the exhibitors.

- A minimum of fifteen (15) head must be shown in the junior Angus heifer classes to receive American Angus Association premium participation. The show is not required to have all classes to be eligible for premiums.
- Separate classes for bred and owned heifers may be held if the size of the show merits a separate class.
- To be eligible for Association premiums the entries must be recorded in the sole name of the junior exhibitor and the issue date on the registration certificate must conform to the individual show's requirements regarding ownership. The Association's contribution is included in the total premiums listed in each class.
- Premiums from the Association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.
- Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.
- Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check in.
- Only one person at a time shall lead an animal into the show ring.
- Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.
- Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the use of chin straps, covering of white skin, false tail heads (or use of any false hair), except for false tail switches. The use of graphite, powders, hemp, or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.
- At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.
- All animals exhibited are subject to DNA markers or blood type tests to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.
- Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.
- The Mississippi Angus Association will conduct their showmanship contest for members 14 years of age and over to select their delegates for the national contest. This competition will be held 30 minutes prior to the start of Beef Showmanship in the Coliseum. The Mississippi Angus Association will be awarding MS Bred Champion and Reserve Champion Bull and Heifer award at the Dixie National Roundup. To be eligible for this award, the junior exhibitor must be a member of the MS Junior Angus Association and be exhibiting a MS Bred bull or heifer.

Beefmaster

- The Junior Beefmaster Breeders Association of San Antonio, Texas will provide 20% of the premium for the Junior Heifer Show, not to exceed \$250.00 total. They will pay our portion directly to the exhibitors. The Southeast Beefmaster Breeders Association will provide \$300 for the Champion Beefmaster Female and Champion Beefmaster Bull. Sponsors of these awards include the following: Clark Jones, Savannah, TN; Mike Savage, Hamilton, MS; Jerry Thomas, Henderson, TN; Steve Dodds, Lexington, TN; and Ronnie Teague, Ramer, TN

Gelbvieh

- The Mississippi Gelbvieh Association will be providing awards and prizes for MS Bred winners.

Hereford

- The Mississippi Hereford Association will be awarding a MS Bred Champion and Reserve Champion Bull and Heifer award at the Dixie National Roundup. To be eligible for this award, the junior exhibitor must be a member of the MS Junior Hereford Association and be exhibiting a MS Bred bull or heifer.

Simmental/Simbrah

- The Mississippi Junior Simmental/Simbrah Association will make a special cash award to the Grand and Reserve Grand Simmental and Simbrah Champions if the exhibitor is an active member of the Mississippi Junior Simmental/ Simbrah Association. The Mississippi Simmental/Simbrah Association will make a special award to the “Herdsman of the Year” which will be a rotating trophy and permanent plaque presented to the exhibitor that the Association Committee feels does the best overall job. (This includes knowledge of cattle, feeding, grooming, etc.). The Mississippi Simmental/Simbrah Association will also sponsor Best 5 MS Bred Heifer and Best 5 MS Bred Bull Classes in the Simmental, Simbrah and Percentage Simmental shows.

PREMIER EXHIBITOR CONTEST RULES AND REGULATIONS

1. Entries for all Premier Exhibitor Contests must be postmarked and sent to the Extension Animal and Dairy Sciences Office (Dean Jousan, Box 9815, Mississippi State, MS, 39762) by December 2, 2025.
2. Competition in this program is for senior level exhibitors only (14 to 18 years of age as of January 1, 2026). The Premier Exhibitor Program is optional for exhibitors.
3. The Premier Exhibitor Contests are available for beef cattle, dairy cattle, lamb, swine, market goat (not Boer goats), and dairy goat exhibitors. Exhibitors may enter in more than one species. However, a separate entry form will be required for each species. Entries should reflect project work for only the past three years and be species-specific.
4. Each contest is scored based on 1000 points broken down into the following categories: Entry Form: 50 points; Written Exam: 200 points; Stations: 300 points; Interview: 150 points; Showmanship: 200 points; and Animal Quality (animal placing in class): 100 points.
5. Exhibitors are permitted to show any animal in a species contest that was properly entered in and qualified for the Dixie National Junior Round-Up to earn points toward the premier exhibitor contest in showmanship and animal quality for that species. The animal exhibited in the regular show to compete for animal quality points based on its placing in its class must be the same animal nominated on the entry form for each premier exhibitor contest. **The animal to be shown at the Dixie National Junior Round-Up to receive points for its class placing must be declared by check-in for that species to the contest superintendents or reported to the show office.**
6. The animal nominated by the exhibitor will receive points on its ranking in its individual class. In showmanship, exhibitors will receive points for entering the class and for their ranking in the showmanship class.
7. The stations phase will consist of different stations of questions relating to the species that they are exhibiting. This will allow exhibitors to demonstrate their knowledge of the species that they are showing.
8. In the event of a tie between competitors in a species contest, it will be broken based on the higher score of the Stations phase of the contest. If a tie still exists, it will be broken based on the higher Written Exam score followed by the Interview score.
9. An exhibitor may win in only one species per year. Also, an exhibitor may win in each species only once.
10. To allow enough time to complete the contest, all participants must check in within the first hour of the contest. If an exhibitor has a conflict with a premier exhibitor contest and a livestock show, they must make prior arrangements with the premier exhibitor contest superintendents at least 48 hours prior to the contest.
11. The winner of the Dairy Premier Exhibitor Contest will be eligible to attend the National 4-H Dairy Conference in Madison, Wisconsin, provided that this 4-H'er has not been on this trip. If the winner of the Dairy Premier Exhibitor Contest has received this trip, the next highest placing exhibitor that has not attended the National 4-H Dairy Conference will be eligible to attend the trip.
12. The Dixie National Sale of Champions Promotion Committee will present a scholarship to the Premier Exhibitor from each species category (beef cattle, dairy cattle, sheep, swine, meat goat, and dairy goat).

ULTRASOUND STEER EVALUATION CONTEST

The ultrasound steer evaluation contest is a unique educational opportunity designed to provide participants with carcass performance information on the live animal. Real-time carcass ultrasound offers a non-invasive method for estimating economically important carcass traits in the live animal. This technology tool is currently being utilized in the beef industry, to make selection decisions for seed stock, to develop ultrasound-based carcass EPDs, and to sort cattle in the feedlot into more uniform groups for optimum carcass performance.

Rules and Regulations

1. Participation is on a voluntary basis. Only market steers weighing a minimum of 1,000 pounds are eligible to compete. All steers will compete in a single class regardless of weight or breed classification. All steers that have met the qualifications to show at the Dixie National Junior Round-Up are entered in the Ultrasound Steer Evaluation Contest. Owners who do not slick-shear their steers can participate in the Ultrasound Steer Evaluation Contest.
2. Ultrasound measurements and weights will be taken immediately following the steer's class in the show. The procedure to obtain measurements will use any necessary oil or lubricant needed. A minimal amount of hair (at least 2 blade widths from the 10th to the 13th rib) will be clipped on the left side of the steer during the measurement process. It will be the exhibitor's responsibility to remove any residue from the hair after processing, as desired.
3. Measurements will be taken to determine ribeye area, back fat, and intramuscular fat. These measurements will then be used to determine quality grade and yield grade on each animal. Placing is based upon a formula used within the industry, which calculates percent retail cuts. Only steers grading low choice or higher and yield grade 3 or less will be eligible for premiums or awards.

Premiums

1st Place – \$1,000.00; 2nd Place – \$750.00; 3rd Place – \$500.00; 4th Place – \$250.00; 5th Place – \$100.00.

LEGISLATIVE LIVESTOCK SHOWDOWN

MSU Extension Agents and Agriculture education teachers are asked to choose their BEST Beef Cattle Livestock Showman in their county and work with them to invite their area Senators and Representatives to the **2026 Dixie National Junior Round-Up Legislative Livestock Showdown on Monday, February 9, 2026**, during the Dixie National Junior Round-Up Livestock Show. The Junior Showman will invite their area Legislator to come to the Fairgrounds to learn how to show beef cattle in a special Legislative Showmanship class. After about 30 minutes of instruction, the 4-H/FFA member-coach will escort their Legislator into the show ring for the Showmanship class, with the Legislator exhibiting the beef animal. Judges will place the show teams based on their showmanship ability. Ribbons (no premiums) will be awarded and the first-place winner in the class will receive a special award, along with their 4-H/FFA member-coach.

Rules and Guidelines

1. Extension Agents and Agriculture education teachers need to communicate with one another to have their area Legislator contacted about the event and assign a 4-H/FFA member to coach the Legislator. Only one 4-H/FFA member should coach with one Legislator. Only beef cattle will be used for the Legislative Livestock Showdown.
2. A special registration folder will be available in the Livestock Show Office at the beginning of the Dixie National Junior Round-Up on Monday, February 2, 2026, for agents/teachers to register the 4-H/FFA member-coach and their Legislative Showman. Registration will be open until Monday, February 9 at 3:00 p.m.
3. Legislators showing beef cattle will report to the announcer's stand in the Coliseum at 6:00 p.m. on Monday, February 3, to meet their 4-H/FFA member-coach. They will then go to the holding area or barns to prepare for the Showmanship class. If applicable, this special class will be worked into the show schedule in the Coliseum so that it will not disrupt the show that is underway. We do not want a 4-H/FFA member-coach to miss their class or drive due to the Legislative Showdown.
4. Please choose a 4-H/FFA member/coach who is a strong communicator, demonstrates patience, and provides thorough instruction with their Legislator-trainee. This is a public relations effort to showcase the Mississippi Junior Livestock Program. The 4-H/FFA member-coach is always to remain with their Legislator in the show ring. Please make sure they get a photo made together for publicity purposes, preferably at the backdrop curtain.

RABBIT SHOW RULES & INFORMATION

BREEDING RABBITS:

- Breeding Rabbits are judged and placed based on a universally accepted Standard of Perfection by the American Rabbit Breeders Association (ARBA).
- This will be an All Breed Youth Show that recognizes only the breeds approved by ARBA.
- This **WILL NOT** be an American Rabbit Breeders Association (ARBA) sanctioned show, however all ARBA rules will pertain to judging.

- Rabbits will be entered into Classes by: Breed, Age and Sex as defined in the Standard of Perfection. For the ARBA Official Breed Variety please visit: ARBA Official Breed ID Guide: <https://arba.net/wp-content/uploads/2021/05/Breed-ID-Guide-Updated-April-2021.pdf>
 - It is the responsibility of the parent to know the breeds standards for their entries.
 - Rabbits are to be entered by the rabbit's birthday **NOT** the exhibitor's birthday (junior, intermediate, or senior).
 - We will have 3 age divisions for each breed and commercial class (Junior, Intermediate and Senior, determined by animals age).
- We encourage each young person to accept the responsibility of his/her rabbit project by placing their rabbits on and off the judging table. No adult will be allowed to place rabbits on the table for youth.
 - Youth many activities as you wish, but always be ready when your rabbits are called to the table.
- Rabbits are shown in specific classes designated in the ARBA Standards of Perfection by: Breed; Age; and Sex. Pedigrees and Registration are not required to show.
 - **Breed:** There are over fifty recognized breeds with unique characteristics. Rabbits do not have to be pure bred to be shown, but they must meet the characteristics of the breed entered. (For the Rabbit Extravaganza, we offer a commercial class that allows un-recognized breeds and colors to be shown.)
 - **Age:** When considering age, both the actual age and the weight of the rabbit must be taken into consideration.

Age by days

Junior - under 180 days

Intermediate - 181 to 240 days

Senior - 241 days or more

- **Weight:** It is also important to know the weight of your rabbits, as it will factor into some classes. There will be a scale on premises for the judge to use at their discretion. The Standards of Perfection set minimum and maximum weight ranges for each age class. Weight ranges for some breeds vary for bucks and does. Consult the Standards of Perfection for weight ranges by Breed from the Standards of Perfection.
- **Sex:** Rabbits are shown as either Bucks (males) or Does (females). Neutered or spayed are not allowed to be shown (except for in the commercial class).
- **Tattoo:** All rabbits must have a permanent and legible tattoo in the rabbit's left ear. The tattoo should only contain numerals 0-9 and/or letters A-Z. The tattoo is to contain no language of a profane nature. An exhibitor may not enter more than one animal in the same class with the same tattoo. Non-permanent "tattoos" such as sharpies are not allowed. Illegible tattoos may result in disqualifications.

OPEN CLASS PARTICIPATION STATEMENT AMERICAN ANGUS ASSOCIATION

The American Angus Association, 3201 Frederick Avenue, St. Joseph, Missouri, will participate in premiums offered for open class Angus breeding cattle classes according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. Premium assistance should not be used to offset show expenses and shall be included in the premium payments distributed by the show to the exhibitors.

A minimum of 50 head must be shown in the open class division to receive American Angus Association premium participation for the following year.

Premiums from the association are paid only to registered Angus cattle and only if the registration number is a part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of premiums. The Association does not pay on championship or any group classes (i.e. get-of-sire, junior get-of-sire, or breeder six-head). Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look-up. Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks, or hot-branded marks) corresponding to the permanent identification mark on the registration certificate, is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.

Any female shown with calf at side: The calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check in.

Only one person at a time shall lead animals into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2; Association Rules; Rule 800 Series; including Rule 800 - 810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powder, hemp or other similar substances externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.

All animals exhibited are subject to DNA marker or blood type tests to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

Exhibitors must be members of the Beefmaster Promotion Group (BPG). All cattle must be registered with Beefmaster Breeders United (BBU). For and in consideration of the opportunity to participate in a BPG approved show, each exhibitor hereby releases BPG and their respective officials, sponsors, agents, directors, employees, and representatives, from any and all claims, liabilities, suits, and judgements, arising from or connected with the administration or use of any animal test, rule enforcement and the resulting decision or action based thereon.

2. Eligibility:

All heifers must be registered with Beefmaster Breeders United (BBU) as an Advancer or Certified E6 as otherwise stated in the BBU By-Laws (no C registration numbers permitted on entry in show). Exhibitors must provide proof of registration upon entry. Original BBU Certificates of Breeding (not copies) on each animal shown, including calf at side, must be presented to the show superintendent at the time of cattle check-in. Application for a BBU Certificate of Breeding on calves less than 30 days of age must be presented.

Official scramble registration papers with appropriate show stamp must be presented at check in.

3. DNA Verification:

All animals are required to have at least one completed BBU purebred parent, either sire and/or dam, verification on file at BBU prior to the show check-in.

* If an animal does not have DNA parent verification completed at that time, they will be ineligible to show. DNA parent verification is defined as having submitted DNA samples per the BBU DNA testing process of the animals being entered, their BBU purebred sire and/or dam, AND then having the show animal's genotype match that of the BBU registered purebred parent as determined by the BBU.

**All entries in the 2026 Beefmaster U – Advancer/E6 show must present a valid BBU registration certificate with registration number AND proof that DNA has been submitted on each female for percentage verification.*

All animals exhibited in the show are subject to DNA marker test to verify accuracy of parentage and for any other testing as required by the individual show. Collection of DNA will be done by a nonpartisan individual designated by the Association and Livestock Show. Any DNA collected on animals exhibited in a BPG approved show is owned by and is the property of Beefmaster Promotion Group. The BPG, and its representatives, have the authority to require such tests as they deem necessary to verify the accuracy of the classification and pedigree of exhibited animals. Said authority shall extend to, and cover the enforcement of, all show rules as adopted by the BPG. Any refusal of DNA being collected will be an automatic suspension from the Beefmaster Promotion Group.

4. Classes:

Classes will be determined and posted after all entries are checked in by the BPG/BBU officials. Every effort will be made to keep classes uniform in age and size. Entries will NOT be divided by division, all class winners and seconds will participate in the overall drive where Grand and Reserve Champion heifers will be selected.

Advancer/E6 heifers must be separately, although concurrently, with the Beefmaster.

Advancer/E6 are NOT eligible for exhibition in ANY purebred Beefmaster group classes.

5. Pair Eligibility:

An E6 cow with a bull calf at side is NOT eligible to show in the Advancer/E6 Show. All calves at the side of cows MUST be registered with BBU. To be eligible to show as a pair, all cows MUST have their BBU registered haltered calf at side.

If the calf at side is over 90 days of age by the date of show check-in, it must have parent verification completed by show check-in. If it is under 90 days, parent verification of the calf is not required.

6. Presentation/Fitting:

* Advancer/E6 exhibitors are NOT subject to purebred slipping rules. Entries are to be presented **blow and go**.

SHOW DATE: FEBRUARY 14, 2026, 2:00 p.m.

ENTRY FEE: \$30.00 / Head

**ARRIVAL DATE: FEBRUARY 13, 2026, 5:00
p.m.**

ENTRIES DEADLINE: JANUARY 23, 2026

Eligibility

1. The owner(s) of record on all animals entered in an IBBA National or Regional point show must be an active member(s) of the IBBA in good standing.
2. Animals must be registered Brangus, Red Brangus, UltraBlack, or UltraRed with the International Brangus Breeders Association (IBBA) to be eligible to compete in an IBBA-sponsored show. Animals recorded in the IBBA Appendix registry are ineligible to show.
3. UltraBlacks and UltraReds must show separately from Brangus and Red Brangus, with the exception of calves shown at the side of their dams in both the Female and Cow Calf show. The registration prefix of the dam determines the classification of the pair.
4. All calves exhibited at the side of the female must be registered with the IBBA and meet all rules required for show eligibility and inspections of exhibits (refer to Rule 9.a.). The registration prefix of the dam determines the classification of the pair.
5. Animals eligible to be shown in group classes must be entered and shown in respective individual classes. Cows exhibited in the cow/calf classes are not eligible for the group classes.

Animal Identification

6. The registration certificate (or photocopy) for each entry must be available for presentation to the Superintendent or show manager at the time entries are verified prior to judging. Digital images and herd book data sheets will not be accepted.
7. Once an animal's identification has been verified by visual inspection of a brand or ear tattoo, it's registration papers will be stamped with seal of the IBBA with the date of the inspection. In future shows, this registration certificate with the seal will need to be presented at check in for identification purposes only. If this registration certificate is presented with the seal of the IBBA, the additional inspection of a brand or ear tattoo is not required. If a new or unstamped certificate is presented, the animal's identification must be verified again before a stamped is received again.
8. Any animal is subject to recheck by the IBBA Ethics Committee at any show at any time.
9. Any animal upon check in which does not have a legible tattoo or brand corresponding to its registration certificate is ineligible to show. An animal may be tattooed immediately at a show for reinspection.

Parent Verification

10. All animals are required to have complete parent, both sire and dam, verification on file at IBBA prior to the show check-in. If an animal does not have **DNA parent verification** completed at that time, they will be ineligible to show. DNA parent verification is defined as having submitted DNA samples per the IBBA DNA testing process of the animals being entered, their sire and their dam, and then having the show animal's genotype match to that of both parents as determined by the IBBA.
 - a. If the calf at side is over 90 days of age by the date of show check-in, it must have parent verification completed by show check-in. If it is under 90 days, parent verification of the calf is not required.
 - b. Cows in the cow/calf pair classes are exempt from the parent verification requirement if they are born prior to September 1, 2016.
11. IBBA reserves the right to collect DNA samples at any IBBA-sanctioned show. Collection will be conducted by random draw for retesting of parentage at the association's expense. At the six national IBBA-sanctioned shows, three random samples will be collected from Brangus and UltraBlack entries and three random samples will be collected from Red Brangus and UltraRed entries. An animal found to not match the stated pedigree must resolve the question before it is allowed to show again. I

Physical Inspection and Eligibility

12. Prior to check-in, heads of exhibited animals must be clipped of all hair, including topknots and be free of scurs and/or slick spots. Animals not in compliance at check in will be required to comply before check in is complete, or they will not be allowed to show.
13. Any animal found to have scurs and/or slick spots; or evidence of incisions, surgical or otherwise, in the following areas: head, testicles, sheath, navel, or dewlap; including scars from caesarean sections, will be disqualified from showing. They shall be disqualified at the show where the violation is determined and all future IBBA sponsored and sanctioned shows. A veterinary statement of purpose or cause will not be accepted.
14. Animals with illegal white (defined as white in front of the navel) or any indication of brindling (a color pattern characterized by red streaks mingled with black), or red animals with any unacceptable coloring (according to the IBBA Red High Color Scale – available at gobrangus.com – and including Brown, Grey, Yellow, Light to White, White Legs or Black Muzzle) are ineligible for show at the show in which the color issue is found. The animal is eligible for inspection at future shows.
15. No animal may be shown that has been pumped with any amount of liquid at any time once the animal enters the grounds of a show. The official show veterinarian may administer liquids orally, if so needed, without disqualifying animal(s) from exhibition.
 - a. A protest of this violation must be submitted per the Violation Policy
 - b. Penalty: The fitter and ranch entity involved with an animal being artificially filled will be banned from the show ring for one year and the animal will be disqualified from exhibition at that particular show.
16. All entries may be classified for judging on an age basis and should be entered in class according to age. Teeth may be inspected by a veterinarian designated by the IBBA in order to determine whether dental development is within allowable limits for the class so entered. If the veterinarian determines that in his opinion dental development exceeds maximum allowable limits, the animal shall be disqualified from the show where the error is determined and all future shows.

Fitting and Presentation

17. Animals unethically fitted to alter the conformation or appearance of the animal, as determined by the appointed IBBA Ethics Committee or IBBA Staff, will be immediately disqualified at the show in which the violation occurred. This includes:

 - b. Paint or coloring agents of any kind are not to be used on any animal exhibited at IBBA sponsored shows.
18. All bulls must have a nose ring or nose restraint with the lead attached at all times, with the exception of being tied in the stalls and tie outs. This includes but is not limited to being in the show ring and during check in. Bulls 250 days and younger are exempt from this requirement.
19. Unruly animals that cannot be kept under control will be disqualified at the said show. If an animal breaks away from its handlers three times, they will be dismissed from the show ring and not eligible to show at that particular show.

Fertility and Performance Requirements

20. Weights and scrotal measurements will be taken on all bulls at check-in at all six of the IBBA National Shows.
21. All Brangus bulls 18 months of age or older that are exhibited at IBBA sponsored shows must have passed a fertility examination given by a non-owner licensed veterinarian or a non-owner certified technician to the standards of the Society of Theriology to be eligible to show. The results of the examination must be available at check-in. Once a bull has a positive examination, retesting is not required.

22. All females 20 months of age or older exhibited at IBBA sanctioned shows, must have available at the time of check-in, a certificate of pregnancy issued by an accredited non-owner veterinarian, non-owner certified professional or blood test results certificate. If a blood test results certificate is provided, it must be blood collected by a non-owner veterinarian or non-owner certified professional, and documented. If the female is open due to being in an embryo transfer program, a certified copy of the flush record showing viable embryos produced by the said female must be presented at check-in, by a non-owner embryologist. If verification cannot be produced, the female will be allowed to participate if the exhibitor can produce a qualified veterinarian to examine the female at the show site and verify pregnancy. Females showing in the Senior Heifer Division of Spring Shows (January 1 through May 31) must adhere to the classifications and have an IBBA registered natural calf, not older than 250 days of age on show date.

Show Rules Violation Policy and Penalties

23. The IBBA and its representative have the authority to request and require such tests as they deem necessary to verify the accuracy of the classification, pedigree of exhibited animals and enforce all show rules as adopted by the IBBA. IBBA representatives shall include the appointed Ethics Committee at each show. A decision by the Ethics Committee and/or the IBBA representative shall stand at the show in which it is made.
24. Owners are responsible for any infraction committed by a non-member or anyone employed or contracted by the owner.
25. A valid show rules violation complaint must be accompanied by a written statement describing the violation, the perpetrator of the violation, and signed by an active member of the IBBA. This written complaint will be presented to an Ethics Committee consisting of the Chairman of the Show Committee and the three person Ethics Committee that has been previously appointed for the show where the complaint is presented. All four people will be current members of the Show Committee.
26. The Ethics Committee shall rule on the validity of the rule violation. The Ethics Committee shall visit with the perpetrator, present the written complaint, and make a ruling on the complaint if valid. The penalty will be applied according to each stated rule above.

The perpetrator is entitled to appeal any decision made by an IBBA representative, Ethics Committee, a veterinarian, certified industry professional or designated association representatives to the IBBA Board of Directors. The following requirements must be met: 1) the appeal is in writing and is signed by the appealing party; and 2) the appealing party files the written appeal with the IBBA Board of Directors as soon as possible after the decision is rendered however, the ruling will stand at the show in which the violation occurred. The IBBA Board of Directors has the right to disqualify the perpetrator from the IBBA approved show after hearing an appeal. The IBBA's Board of Directors decision is final.

ARRIVAL DATE: FEBRUARY 19, 2026 at 5:00 p.m.

ENTRIES CLOSE: JANUARY 23, 2026

The 2025 Dixie National will include an Open Gelbvieh Show with an Open Balancer Show beginning 15 minutes after the Gelbvieh Show. The same rules will apply for the Balancer as for the Gelbvieh.

Open Gelbvieh Show Rules

1. All animals exhibited must be recorded in the name of the exhibitor prior to entry deadline. A copy of the registration paper or an affidavit of registration must accompany each entry to show.
2. Animals are placed in the category based on the rule of the year that animal was born: "Gelbvieh females sixty-nine point one (75%) percent to one hundred (100%) percent will show together in the Gelbvieh show. Gelbvieh bulls sixty-nine point one (75%) percent to one hundred (100%) percent will show together in the Gelbvieh show. A Gelbvieh female or bull that is at least 75% Gelbvieh or more and qualifies for the Balancer® trademark can choose whether to show as Gelbvieh or Balancer at the time of entry. To qualify for the Balancer® Show all cattle must meet the American Gelbvieh Association's Balancer trademark rules for registration as a Balancer.
3. Cattle must be entered and exhibited under the recorded ownership at the time of show deadline date. Jointly owned animals must be entered and shown under the multi-ownership (all co-owners) in the individual classes.
4. All animals must either be properly tattooed, including herd prefix and will be inspected at the show. If the tattoo is illegible or does not correspond to registration certificate, the animal is ineligible to show or may be re-tattooed by the exhibitor and re-checked at the end of processing. EID numbers will be accepted as permanent forms of animal identification but must be printed on the animals registration paper.
5. All cattle must meet the health requirements set out by the Show Management. Any deviation from the health requirements will be just cause for immediate disqualification from the show.
6. Show committee prohibits the use of powders of any color, false tailheads and glued-on hair or hair-like substances.
7. All bulls must show with a nose lead. Entry into the show ring without one will be an automatic disqualification. The right to disqualify from the show any animal deemed unmanageable is reserved by the show committee.
8. Age of calf at side in cow/calf class must not exceed two hundred forty (240) days as of date of show. Calf must be natural calf, not an embryo transfer calf.
9. Any person found guilty of misrepresentation, or not abiding by the show rules will be disqualified and denied the privilege of showing.
10. Classes will be split as evenly as possible after processing. Splits will be decided using the total entries at processing.
11. It is expected and required that all parties involved in any Gelbvieh or Balancer show shall respect, cooperate, and be courteous to the judge, show management, exhibitors, the American Gelbvieh Association, AGA staff, and spectators before, during, or after a show. If an exhibitor, employee, or family member of exhibiting operation should violate this via phone call, text message, email, social media, and/or in person, that operation will be removed from the show and/or be banned from exhibiting in any Gelbvieh or Balancer show for a year including AGJA Junior Nationals and the National Gelbvieh and Balancer show. Any Gelbvieh or Balancer animal co-owned by offending operation will also not be allowed to be exhibited at any AGA sanctioned show for that year.
