Dairy Has Many Health Benefits

By The Dairy Alliance

June is National Dairy Month and a great time to think about the many health benefits of dairy. Milk and dairy products are a primary source of calcium in our diet and provide many health benefits for people of all ages. We most often associate milk with improved bone health. While milk certainly is important to bone health, the benefits of milk go well beyond our bones. Calcium is also needed for heart muscles to contract, nerves to work properly, and for blood to clot. Consider the following benefits of dairy foods:

Bone Health: Calcium and vitamin D are essential to bone health. Adequate calcium helps build bone mass in children and adolescents,

and it helps slow bone loss associated with aging. Vitamin D is necessary for calcium to be absorbed in the gut. Both calcium and vitamin D are considered “nutrients of concern” by the Dietary Guidelines for Americans because they are frequently under consumed in the American diet. Milk naturally contains calcium, is fortified with vitamin D, and is a convenient and economical source for both nutrients.

Chronic Disease: Scientific studies link consumption of dairy foods to a lower risk of several chronic health problems. Consumption of dairy products, especially milk, is

associated with a lower prevalence of metabolic syndrome. Metabolic syndrome is a cluster of conditions including abdominal obesity, insulin resistance, elevated blood glucose, abnormal blood lipids such as triglycerides and cholesterol, and high blood pressure. Metabolic syndrome increases a person's risk for type 2 diabetes, heart disease, and stroke. Dairy foods, and particularly yogurt, are associated with a reduced risk of type 2 diabetes in adults. The intake of the recommended servings of dairy are also linked to a reduced rate of overweight and obesity in

children.

Probiotics: Consumer interest in probiotics has been growing. Probiotics are living microorganisms known to have health benefits. Probiotics we consume contribute to the trillions of microorganisms, also known as “good bacteria,” that make up the microbiome of our gut and are considered essential to our health and immune system. Examples of dairy products that contain probiotics are aged cheeses, such as cheddar or gouda; kefir, a probiotic milk drink; and yogurt. The refrigeration of dairy products helps maintain these probiotics.

Protein: Dietary protein is essential for growth in children; for repairing and maintaining body tissues; building enzymes, hormones, and antibodies; and maintaining acid-base and fluid balances. Milk contains two types of high-quality proteins, whey and casein. The whey and casein proteins in milk contain all the essential amino acids in enough amounts to support the many roles that proteins play in our bodies. The combination of high-quality protein, fluid, and carbohydrate in milk also makes it an effective recovery drink for athletes after strenuous workouts. In addition, milk has been shown to be a more ef-

fective rehydration drink than sports drinks post-exercise.

Nutrient Synergy: In the nutrition world, there is a term called nutrient synergy. Nutrient synergy refers to the increased health benefit when nutrients are combined as compared to the impact of individual nutrients. Nutrients work synergistically to improve each other's absorption and the physiological impact they have on our body. In other words, nutrients work best together, not in isolation. Although milk and dairy products are most commonly recognized for the calcium and vitamin D they contain to support bone health, dairy products also contain protein, manganese, zinc, vitamin K, phosphorus, and magnesium. All these nutrients work together to maintain bone and overall health.

We know that milk and dairy products are an important part of our daily diet. But, how much milk should we drink? Children between 1 and 2 years of age should consume 2 to 3 cups of whole milk each day. Children aged 2 and above, and adults should consume 2 to 3 cups of skim or low-fat milk each day. As we enter the summer season, think of the many ways you can incorporate dairy foods into your daily diet.

Celebrate June Dairy Month

By The Dairy Alliance

National Dairy Month started out as a way to distribute extra milk during the warm months of summer. The commemoration was established in 1937 by grocer organizations sponsoring “National Milk Month.” By 1939, June became the official “dairy month.”

Trusted for decades, dairy farm families pride themselves on pro-

ducing wholesome dairy foods that help their families grow up strong and healthy. Dairy farmers strive everyday to produce wholesome milk and milk products that your family can feel good about eating.

June is recognized as National Dairy Month to pay tribute to nutritious dairy products like milk and the hard-working dairy farmers who help produce it for us all.

Commissioner Andy Gipson

Hosts Agriculture Technology Roundtable

By Hannah East
Marketing Specialist - MDAC

On May 18, Commissioner of Agriculture and Commerce Andy Gipson hosted an Agriculture Technology Roundtable discussion with farmers, university officials, legislators and industry stakeholders at Mississippi State University's (MSU) Delta Research and Extension Center (DREC) in Stoneville.

"The future of agriculture, Mississippi's top industry, is driven heavily by the introduction and adoptions of new technologies," said Commissioner Gipson. "This roundtable provided us the opportunity to bring together various

stakeholders to discuss the vital role technology plays in agriculture and its importance to the industry and farmers' bottom lines."

Dr. Steve Martin, associate director of the MSU Extension Service and interim head of the Delta Research and Extension Center, opened with a brief overview of DREC. Panelists included Pete Nelson, executive director of AgLaunch in Memphis, Tenn., who discussed the AgLaunch's efforts to grow ag tech startups and build collaborative farmer networks across the surrounding region. Dee Boykin of the Southern Soil & Plant Lab, LLC, in Yazoo City, discussed various agriculture tech-

nology practices used by farmers including aerial imagery, drones and variable rate applications, as well as the challenges faced by farmers with inadequate broadband access.

Dr. Alex Thomasson, department head of MSU's Department of Agriculture and Biological Engineering, discussed the importance of various technologies including precision ag, drones and robots, plant phenomics, and traceability and block chain. Dr. Edmund Buckner, dean and director of Land Grant Programs at Alcorn State University, gave an overview of the research that the university is conducting, specifically in the area of

specialty crops to increase yields and the global food supply. Division Director and Bureau Manager Joe Donavon with the Mississippi Development Authority's (MDA) Entrepreneur Center presented MDA's V-Quad program, an initiative that links together research universities, non-profit organizations and government entities in Mississippi to develop systems to develop technologies quickly.

"We heard real world examples of how farmers implemented technology to increase both yields and efficiencies. That means more food is produced while increasing profits for farmers. I appreciate those who were part of the important discussions during this busy time for our farmers. This roundtable was just the beginning of many discussions to come regarding the importance of technology in agriculture and its future role within the industry," said Commissioner Gipson.

From Our Kitchen To Yours

June is National Dairy Month!

Maple Cinnamon Milk Tea

- 1 1/2 cups milk
- 2 cinnamon sticks
- 1 tablespoon maple syrup
- 1 teaspoon vanilla
- 3 black tea bags
- 2 cups boiling water
- ground cinnamon

Combine milk and cinnamon sticks in a heavy bottom saucepan, bring to a low simmer and let steep for 5 minutes, discard sticks. Meanwhile, bring 2 cups water to a boil and add tea bags. Let steep 2-3 minutes, discard bags. Add maple syrup and vanilla to the steeped milk, stir to combine. Add tea to milk mix, stir to combine. Divide evening among mugs, garnish with a sprinkle of ground cinnamon. Serve immediately.

No-Churn Milk and Cookies Ice Cream

- 2 cups heavy whipping cream
- 1 (14 ounce) can sweetened condensed milk
- 1 cup whole milk
- 2 teaspoons vanilla extract
- 1 1/2 cups crushed chocolate chip cookies

Place cream in large mixing bowl and whip on high speed until soft peaks form. Gradually add milk and mix on low until well combined, followed by the

sweetened condensed milk. Stir in about a third of the cookie crumbles. Transfer a third of the mixture to a large freezer-safe container and sprinkle a layer of cookies on top. Repeat layers ending with a top layer of cookie. Cover tightly with lid or plastic wrap and place in freezer for at least 6 hours or overnight.

Grilled Cheese Harvest Sandwich

- 2 slices multigrain bread
- 2 slices white Cheddar cheese
- 2 slices yellow Cheddar cheese
- 2 slices Black Forest ham, thinly sliced
- 10-12 apple slices, very thinly sliced (about 1/4 of a medium apple)
- 1 teaspoon Dijon mustard, divided
- 1 tablespoon butter, softened

Heat a nonstick or cast-iron skillet over medium heat. Spread Dijon mustard evenly on each slice of bread, then place 2 slices of white Cheddar on one slice. Place ham on top of cheese, distributing evenly. Add apple slices on top of ham layer, then finish with yellow Cheddar and remaining slice of bread. Spread top of bread with softened butter and place that side down in heated pan. Cook for approximately 4 minutes (if necessary, turn the heat down so the bread doesn't burn). While sandwich is cooking, spread remaining softened butter on top of bread. Flip sandwich over and cook another 3-4 minutes or until lightly browned.

Cheesy BLT Pasta Salad

- 1 1/2 cups penne pasta, uncooked
- 1/2 cup sour cream
- 1/2 cup light mayonnaise
- 2 tablespoons lemon juice
- 1/2 cup fresh basil, coarsely chopped
- 1/2 teaspoon freshly ground black pepper
- 1/4 teaspoon garlic powder
- 4 cups torn romaine lettuce
- 4 thick bacon slices, cooked and crumbled
- 2 cups cherry tomatoes, halved
- 4 ounces (about 1 cup) shredded sharp cheddar cheese
- 1 cup large croutons

Cook pasta according to package directions; drain well and set aside to cool. Stir together sour cream and next six ingredients until well blended. Toss cooled pasta, lettuce, bacon, tomato and cheese in large bowl; add sour cream mixture and toss to coat. Sprinkle with croutons and serve immediately.

Cogongrass Control

Cogongrass ranks as the world's seventh worst noxious weed and has been detected in 66 of Mississippi 82 counties. Cogongrass quickly invades areas of low management like abandoned fields, highway rights of way, utility rights of way, and commercial forest plantations by means of seed disbursement and movement of rhizomes

The Mississippi Department of Agriculture and Commerce (MDAC)/Bureau of Plant Industry (BPI) continues to assist landowners in combating this noxious weed through its Control Demonstration Program. Through this program, MDAC provides herbicide to landowners in Mississippi at no charge. MDAC also provides treatment guidelines and spray options on how and when to apply the herbicide. MDAC staff participates in local meetings, training landowners and the general public on the identification of Cogongrass.

Landowners detecting Cogongrass on their property can apply to participate by submitting an application to BPI. The application can be found on the MDAC website at http://www.mdac.ms.gov/wp-content/uploads/bpi_plant_cogongrass.pdf, at your local Mississippi State University Extension Service office or your local USDA Natural Resource Conservation Service office.

For more information, please contact Denise Clanton at 662-325-8147 or DeniseC@mdac.ms.gov.

For more information about the Certified Farmers Market (CFM) program contact Donna West at 601-359-1118.

For six decades, patrons have contributed funds in exchange for a magnolia tree planted in honor of or in memory of loved ones. Over the years the program has planted tens of thousands of magnolia trees along state highways. Due to new regulations, the program needed adjustments. Enjoy the beautiful garden created in honor of your loved ones located at the Mississippi Ag and Forestry Museum in Jackson, Mississippi.

The main garden has a formal design incorporating a variety of plants, trees, flora, stone, water, and wood. The gardens will be strategically lighted to enhance the beauty of the design at night. Enjoy the lush landscape encircling the bronze "Working Man" sculpture donated to the Ag Museum in 2011. Relax on the cypress wood seating to enjoy the container gardens and water features framed with cypress shutters. Floral beds offer seasonal beauty outside of the central area.

The goal is to complete the entire project in 2021, honoring the 60th anniversary of Magnolia Gardens, formerly known as Avenue of Magnolias. We thank you for your contributions thus far. In order to complete the gardens, including the Avenue of Magnolias, \$150,000.00 in additional funds are needed.

All donations, regardless of amount, will receive a letter acknowledging their donation. Recipients will receive our Magnolia Garden certificate honoring their loved ones.

Donations exceeding \$5,000 will be acknowledged with a plaque at the garden site.

Mississippi Market Bulletin

P. O. Box 1118

Jackson, MS 39215-1118

Please allow four weeks for your first issue delivery.

The Mississippi Market Bulletin is published on the 1st and 15th of each month by the Mississippi Department of Agriculture and Commerce. The Mississippi Market Bulletin is an important way for the Department to disseminate news and information about issues affecting Mississippi's agriculture industry and the Department's operations.

Through its classified advertising section, the Bulletin provides a forum for Mississippi residents to buy and sell agricultural related items while also giving statewide exposure to small farmers who might not normally have the economic resources for such widespread advertising. The Bulletin does not publish commercial or display ads and all items offered for sale must have been produced, raised, grown or operated on the seller's property. Businesses, corporations, dealerships, brokers or other commercial enterprises are not allowed to advertise in the Mississippi Market Bulletin.

Advertising rules and guidelines have been established for the Mississippi Market Bulletin in order to comply with regulations enforced by the Mississippi Department of Agriculture and Commerce and to maintain the objectives of the publication. The staff of the Mississippi Market Bulletin reserves the right to edit, revise or reject any advertisement.

The Mississippi Market Bulletin assumes no responsibility for any notice appearing in the Bulletin nor for any transaction resulting from published notices. Advertisers are cautioned that it is against the law to misrepresent any product offered for sale in public notices or advertisements carried in any publication that is delivered by the United States Postal Service.

- In order to advertise in the Mississippi Market Bulletin you must be a subscriber. It's **FREE** to advertise, just include your name, mailing address and account number that the subscription is listed under on each ad that you submit (this information will not be printed). **Each subscriber is allowed to advertise two ads in the Bulletin, listing one ad per category.**
- All listings must be agriculture related (raised, grown, produced or operated on your farm). At the top of your ad, write the category that the ad should be listed under. We reserve the right to edit, revise or reject each ad. Please print or type your ad.
- There is a 30-word limit for classified advertisements, this includes: price (on the item you are selling), your city, county and telephone number or name and complete address must be included in the ad if you do not list a telephone number. Ads cannot be held over from one issue to another. You must submit them for each issue.
- Out-of-state residents are not eligible to advertise with the following exceptions: Out-of-state ads are allowed in the "Wanting To Buy" category. Out-of-state ads are allowed for individuals owning farm property within the state that is being offered for sale.

Mississippi Land, Water and Timber Resources Board Announces Approval of \$3.1 Million to Expand Meat Processing Capacity in the State; Doubles Mississippi Meat Processing Capacity

By Hannah East
Marketing Specialist - MDAC

The Mississippi LWTRB approved applications from seven processors.

The Mississippi Land, Water and Timber Resources Board (LWTRB) approved \$3.1 million in financial assistance to seven livestock processing facilities to increase their capacity following interruptions in the food supply chain due to the COVID-19 pandemic.

The Board, co-chaired by Commissioner of Agriculture and Commerce Andy Gipson and Executive Director of the Mississippi Development Authority John Rounsaville, approved funding to expand currently operating USDA-inspected processing facilities and construct new USDA-inspected facilities.

"Last May, when the pandemic was still new, I announced steps toward making Mississippi's food supply chain more resilient. We removed limits on the number of owners allowed per animal for custom slaughter. We created MSFarm-Marketplace.com to connect directly farmers and consumers to enhance farm-to-table supply lines. We provided guidance to farmers markets across the state so if they chose to remain open, they could operate safely. And, we invited meat processors in the state to submit applications to expand their operations. A year later, we have approved \$3.1 million to effectively double Mississippi's domestic meat processing capacity," Commissioner Gipson said.

- Attala Frozen Foods in Attala County, was awarded a grant in the amount of \$611,110 to expand its USDA-inspected processing facility. The grant allows for the building construction and the purchase of equipment.

- Homestead Farm and Packing in George County, was awarded a grant in the amount of \$49,700 to purchase new equipment to increase the processing capacity of its USDA-inspected processing facility.

- Pitcock Processing, Inc. in Panola County, was awarded a grant in the amount of \$494,745.80 and a loan in the amount of \$329,897.20 to construct a new USDA-inspected processing facility and purchase equipment.

- Cutting Edge Meat Co. in Greene County, was awarded a grant in the amount of \$350,000 to assist with the cost of constructing a new USDA-inspected processing facility and purchasing equipment.

- A Cut Above Meat Processing and Market, LLC in Hancock County, was awarded a grant in the amount of \$529,560 and a loan in the amount of \$353,040 to construct a new USDA-inspected processing facility and purchase new equipment.

- Blue Sky RE, LLC in Rankin County, was awarded a grant in the amount of \$304,385 to purchase a

USDA-inspected mobile processing unit and modular cut and wrap facility. This innovative mobile facility providing USDA-inspected slaughter on-site at Mississippi farms is the first of its kind in the state.

- Juniper Creek Farms, LLC in Pearl River County, was awarded a grant in the amount of \$70,000 to construct an on-farm USDA-inspected poultry processing facility.

"The past year has been difficult for many industries in Mississippi, and agriculture is no exception," said MDA Executive Director John Rounsaville. "The intent of these loans and grants is to enhance

market opportunities for livestock producers and processors while simultaneously strengthening our agricultural economy."

The number of USDA-inspected facilities that provide slaughtering and processing services to the public will double. A new mobile processing unit, the first of its kind in Mississippi, will bring the slaughtering component direct to the farm. The increased number of facilities will provide additional opportunities for farmers and will potentially decrease the number of miles cattle must be transported.

"Expanded capacity in processing is a game-changer for local con-

sumers and the livestock industry, and another step toward increasing access to local food. We want to ensure Mississippi has the necessary local food infrastructure to meet growing local demand, as well as guard against supply and distribution interruptions due to workforce and plant capacity challenges in other states. Through the expansion of currently operating USDA-inspected facilities and the construction of new USDA-inspected processing facilities, we are on track to more than double the livestock processing capacity in Mississippi," said Commissioner Gipson.

New Trade Mart to Host Mississippi's Largest-Ever Outdoor Show Coliseum to Host Concert in Conjunction with August Event

By Foundation for Mississippi Wildlife, Fisheries & Parks

The first annual Mississippi Ag & Outdoor Expo, the largest outdoor show to ever be held in Mississippi, will be held August 6-8, 2021, at the new Mississippi Trade Mart located at the state fairgrounds in Jackson, Miss. The show will be hosted by The Foundation for Mississippi Wildlife, Fisheries & Parks and presented by Southern AgCredit.

A concert featuring three musical acts will take place on Saturday evening, August 7, in conjunction with the new Ag and Outdoor Expo.

"We are thrilled to bring a brand-new show in a new venue to Mississippi," said Don Brazil, CEO of The Foundation. "This show will highlight the incredible hunting, fishing, agricultural and outdoor spirit of our great state. The Foundation is proud to be a part of this show and look forward to the great time

we will have together in August!"

Mississippi's premier outdoor show will feature large displays of everything for fishing, hunting, agriculture and outdoor recreation, a Big Buck contest, and activities for the entire family including Fetch & Fish High Flying Dogs and Ax Women Loggers of Maine.

"After almost 18 months of COVID-19 and staying home, we know people will be thrilled at the opportunity to get out and celebrate the

Mississippi outdoors," said Andy Gipson, Commissioner of Agriculture & Commerce. "Agriculture and the great outdoors go hand in hand, and this provides a great opportunity to bring those enthusiasts together at one event. We are excited to partner with the Mississippi Wildlife and Fisheries and Parks Foundation and look forward to hosting the largest agriculture and outdoor show in the state."

Saturday Evening Concert

A concert will be held Saturday evening featuring Travis Denning and Walker Hayes and headlined by Tyler Farr. Doors will open at 6 with Adam Doleac taking the stage at 7:00 p.m. Combo tickets for the Expo/concert will be available as well as separate concert admission.

About The Foundation

In 2003, the Mississippi Department of Wildlife, Fisheries, and

Parks (MDWFP) established a foundation to assist in protecting and preserving our wildlife heritage. The Foundation is the only outdoor organization that directly supports the MDWFP, which has the primary responsibility for hunting, fishing, shooting sports and conservation in the state. Through the Foundation's financial support, various wildlife and educational projects associated with the MDWFP are made possible.

The Foundation also helps fund many additional programs not directly associated with the MDWFP whose goal is to preserve and protect the natural resources of the state.
