## Long-Lasting Pentas Bloom Spring to Frost

Dr. Eddie Miles Louis Smith  
MSU Extension Service

I absolutely love promoting great plants that are perfect for our gardens and landscapes. Some of these plants are those Mississippi State University grows as part of a testing program for plant breeders.

Recently, I had the pleasure of touring a trial planting of pentas that have performed exceptionally well this year in Poplarville at the South Mississippi Branch Experiment Station. The Butterfly series of pentas were really showing out in early October.

addition to any garden with a wide range of colors and varieties that are sure to catch your eye. Colors include pink, purple, red and white. They can be grown in containers or garden beds.

These plants bloom from spring until the first fall frost, with up to 20 clusters of flowers on a single plant at any given time. Each small flower has five petals that resemble colorful stars, making it a perfect choice for gardeners who love vibrant colors and unique shapes.

One of the standout varieties in the Butterfly series is the Butterfly White penta. This plant boasts classic white blooms that resemble bright stars. The blooms stand out against the backdrop of dark green foliage. If you're looking for a stunning, low-maintenance plant that can add an elegant touch to your garden or landscape, Butterfly

White penta is worth considering.

The Butterfly Orchid penta is another stunning variety that showcases striking blooms that are

typically a shade of pink or light purple, adding a touch of whimsy and playfulness to any garden.

If you are a gardener who loves bold and vibrant colors, then the Butterfly Deep Rose penta is the perfect choice for you. This variety showcases deep, dark pink flowers with light pink eyes, making it a standout addition to any garden.

Lastly, the Butterfly Light Lavender penta is a unique and beautiful variety. It has lavender-colored flowers that can add a touch of serenity and calmness to your outdoor space.

Like other pentas, the Butterfly pentas attract butterflies and other pollinators, making them an essential addition to any garden. They provide a rich nectar source from summer through fall.

When planting pentas, it's important to keep in mind that they thrive in a neutral soil pH of about 7. To achieve this, consider adding a small amount of dolomitic limestone to the soil. They also prefer

well-drained soil that's rich in organic matter.

Be sure to plant pentas in a location with full sun exposure. Water regularly, but be careful not to overwater, as pentas are susceptible to root rot. Fertilize monthly with a balanced fertilizer to promote healthy growth and blooming.

To ensure that your pentas continue to bloom beautifully throughout the year, deadhead spent flower clusters. Removing blooms when they fade promotes more flowering.

Pentas are an excellent plant choice for gardeners looking to add a touch of beauty and vibrancy to their garden while also attracting beneficial insects and pollinators.

With their extended blooming period and range of colors and varieties, the Butterfly series pentas are a must-have for any garden. Be sure to include them in your plans for next year.

*Commissioner Andy Gipson Announces November 2023  
Wild Hog Control Program Application Period*

By Chris McDonald  
Director of Federal and  
Environmental Affairs - MDAC

Commissioner of Agriculture  
and Commerce Andy Gipson  
announced that the Mississippi  
Department of Agriculture and  
Commerce (MDAC) will begin  
accepting a new round of appli-  
cations for its Wild Hog Control

Program (WHCP) on November  
1. The application period will  
close on November 15. All Mis-  
sissippi counties are eligible for  
the application period.

Through the WHCP, MDAC  
provides “smart” wild hog traps  
to landowners and managers for  
the control of wild hogs on private  
agricultural and forestry lands in

Mississippi. MDAC provides  
the training necessary to use the  
“smart” traps and technical guid-  
ance regarding the most effective  
methods to trap and control wild  
hogs on private lands.

Applications must be complet-  
ed and submitted online at [www.mdac.ms.gov/whcp](http://www.mdac.ms.gov/whcp). Submitted  
applications will be evaluated

**Andy Gipson  
Commissioner**

based on the number of acres  
available for trapping, historical  
agricultural losses caused by wild  
hogs on the property and current  
trapping efforts on the property.  
A cooperative application is en-  
couraged for small acreage (i.e.,  
adjoining land managers of small  
parcels should work together to  
submit one application). Traps  
will be available for one-month  
intervals, dependent upon use  
and success. One trap per 500  
acres is recommended, depend-  
ing on landscape and land use.

Visit [www.mdac.ms.gov/whcp](http://www.mdac.ms.gov/whcp)  
for program guidelines, applica-  
tions and additional information.  
Submit questions regarding the  
WHCP to Chris McDonald at

## Advertising Guidelines

The Mississippi Market Bulletin is published on the 1st and 15th of each month by the Mississippi Department of Agriculture and Commerce. The Mississippi Market Bulletin is an important way for the Department to disseminate news and information about issues affecting Mississippi's agriculture industry and the Department's operations.

Through its classified advertising section, the Bulletin provides a forum for Mississippi residents to buy and sell agricultural related items while also giving statewide exposure to small farmers who might not normally have the economic resources for such widespread advertising. The Bulletin does not publish commercial or display ads and all items offered for sale must have been produced, raised, grown or operated on the seller's property. Businesses, corporations, dealerships, brokers or other commercial enterprises are not allowed to advertise in the Mississippi Market Bulletin.

Advertising rules and guidelines have been established for the Mississippi Market Bulletin in order to comply with regulations enforced by the Mississippi Department of Agriculture and Commerce and to maintain the objectives of the publication. The staff of the Mississippi Market Bulletin reserves the right to edit, revise or reject any advertisement.

The Mississippi Market Bulletin assumes no responsibility for any notice appearing in the Bulletin nor for any transaction resulting from published notices. Advertisers are cautioned that it is against the law to misrepresent any product offered for sale in public notices or advertisements carried in any publication that is delivered by the United States Postal Service.

- In order to advertise in the Mississippi Market Bulletin you must be a subscriber. It's **FREE** to advertise, just include your name, mailing address and account number that the subscription is listed under on each ad that you submit (this information will not be printed). **Each subscriber is allowed to advertise two ads in the Bulletin, listing one ad per category.**
- All listings must be agriculture related (raised, grown, produced or operated on your farm). At the top of your ad, write the category that the ad should be listed under. We reserve the right to edit, revise or reject each ad. Please print or type your ad.
- There is a 30-word limit for classified advertisements, this includes: price (on the item you are selling), your city, county and telephone number or name and complete address must be included in the ad if you do not list a telephone number. Ads cannot be held over from one issue to another. You must submit them for each issue.
- Out-of-state residents are not eligible to advertise with the following exceptions: Out-of-state ads are allowed in the "Wanting To Buy" category. Out-of-state ads are allowed for individuals owning farm property within the state that is being offered for sale.

# State Fairgrounds Hosts the Successful 2023 Mississippi State Fair

Commissioner of Agriculture and Commerce Andy Gipson officially kicked off the 164th Mississippi State Fair with a ceremonial ribbon cutting. The State Fairgrounds partnered with the Jackson Police Department; Hinds County Sheriff’s Office; State Capitol Police; Mississippi Agriculture and Livestock Theft Bureau; State Fire Marshal’s Office; Mississippi Highway Patrol; Mississippi Department of Wildlife Fisheries and Parks; Pearl Police Department; Florence Police Department; Department of Homeland Security; and Swetman Security to ensure the safety of fairgoers.

“The 164th Mississippi State Fair is in the books, and I am proud to report it was a success. The 11-day fair is the state’s largest agriculture event with an economic impact of nearly \$50 million annually. We estimate the total fair attendance, which accounts for non-paid admissions, to be nearly 526,000,” said Commissioner Gipson.

Several talented contestants from entered in this year’s Miss Mississippi State Fair Pageant.
