## **Ag Commissioner Andy Gipson Announces Next Wild Hog Control Program Application Period**

**JACKSON, Miss.** – Today, Commissioner of Agriculture and Commerce Andy Gipson announced that the Mississippi Department of Agriculture and Commerce (MDAC) will begin accepting a new round of applications for its Wild Hog Control Program (WHCP) on Wednesday, April 7. The application period will close on Wednesday, April 21. All Mississippi counties are eligible for the application period. In Mississippi alone, wild hogs cause more than \$60 million in damages annually.

Through the WHCP, MDAC provides “smart” wild hog traps to landowners and managers for the control of wild hogs on private agricultural and forestry lands in Mississippi. MDAC will provide the training necessary to use the “smart” traps and technical guidance regarding the most effective methods to trap and control wild hogs on private lands.

“The Wild Hog Control Program has been a great success so far. Working with farmers and landowners, we have captured wild hogs on 21 properties in 11 counties to date,” said Commissioner Gipson. “This program provides a great opportunity for farmers and landowners to gain access to the latest technology used to trap wild hogs. It also provides a great opportunity for the Department of Agriculture and Commerce to teach farmers and landowners how to trap wild hogs and use that knowledge for future control efforts on their lands.”

Applications must be completed and submitted online at [www.mdac.ms.gov/whcp](http://www.mdac.ms.gov/whcp). Submitted applications will be evaluated based on the number of acres available for trapping, historical agricultural losses caused by wild hogs on the property and current trapping efforts on the property. A cooperative application is encouraged for small acreage (i.e., adjoining land managers of small parcels should work together to submit one application). Traps will be available for one-month intervals, dependent upon use and success. One trap per 1,000 acres is recommended, depending on landscape and land use.

Visit [www.mdac.ms.gov/whcp](http://www.mdac.ms.gov/whcp) for program guidelines, applications and additional information. Submit questions regarding the WHCP to Chris McDonald at [chris@mdac.ms.gov](mailto:chris@mdac.ms.gov).
